At the end of the 2020–2021 school year, students in grades three through eight participated in the California Assessment of Student Performance and Progress.

**During that year, your child took the following test(s):**

- California Alternate Assessments (CAAs) for English Language Arts/Literacy (ELA) and Mathematics

***Your child's Student Score Reports are attached to this letter.***

These Reports show scores for ELA and Mathematics. For students in grades four through eight who took the test in previous years, you will also see past scores, which will show your child's progress over time.

To learn more about your child's scores, go to the parent web page called *Starting Smarter*, available at <https://www.ca.startingsmarter.org/>. There, you will find:

- Resources to help you understand test results on the Student Score Reports
- Access to sample test questions and practice tests
- No-cost resources to support your child's learning
- A guide to prepare for parent-teacher conferences

In our district, the test results are just one way to look at how well students are doing. We use the results to find areas in which students are doing well and areas in which they need further support. If you have questions or concerns about your child's progress, please call your child's school.

Respectfully,

Tasha Doizan, Ed.D.  
Assistant Superintendent of Academic Services
